Welcome to CEHR

CEHR by PCE Systems is the patient portal that allows healthcare providers to communicate and share information with the persons they serve.

CEHR is free, easy to use, confidential and available wherever you have internet access.

You and your authorized representative can setup an account to access your own health information.

CEHR allows you to:

Check on your lab results

View upcoming appointments

Sign documents

View current medications, diagnosis, vitals and allergies

Send messages to your healthcare provider

Download or email your health data to another healthcare provider

To create and account and access your information, visit **www.mycehr.com**. You will need your case number and a PIN to create an account. Please contact staff to receive this information.

If you have any questions or need assistance please contact your healthcare provider.
