About Us

PsyGenics is dedicated to positively impacting the lives of individuals diagnosed with intellectual and developmental disabilities and mental illness.

We consider the 1,600 children and adults

we serve in Wayne County to be a part of our family. We recognize the significant responsibility entrusted to us and are committed to going the extra mile for our community.

A photograph of three people: a young girl with dark curly hair, a woman with long dark hair, and an older woman with short grey hair. They are all smiling and hugging each other. The woman in the middle is wearing a light-colored top, the older woman is wearing a yellow top, and the young girl is wearing a white top. The background is a blurred indoor setting.

Our mission

is rooted in compassion, understanding, and the firm belief that everyone deserves the opportunity to lead a fulfilling life.

Services and Programs

PsyGenics' comprehensive outpatient program serves as a one-stop-shop, providing specialized services, ongoing support, and assistance to the communities we serve.

Case Management

At PsyGenics, our Case Managers serve as members' dedicated partners and guides towards greater self-advocacy, empowerment, and personal responsibility. Following a thorough assessment of a members' needs, wishes, and desired outcomes, our Case Managers create a personalized treatment plan. The Individualized Plan that includes supports and services focused on:

- Occupational Therapy
- Speech Therapy
- Mental Health Therapy
- Psychiatric Services
- Medication Management
- Health and Wellness Service
- Financial Assistance
- Housing Supports
- Education and Employment
- Social Services
- Other Natural Supports as needed

Speech Therapy

Our team of skilled Speech Therapists use approaches that focus on abilities, knowledge and capacity to help members become successful and confident communicators. Our strategies focus on skills such as:

- Pronunciation and Phonetics
- Language
- Memory and Organization
- Augmentative and Functional Communication
- Oral-motor Skill Development

Occupational Therapy

Working through the entire lifespan, our highly trained Occupational Therapists understand the importance of active and meaningful participation in all areas of one's life. Treatment and programs address areas such as:

- Activities of Daily Living
- Independent Living Skills
- Gross and Fine Motor Skills
- Sensory Integration
- Vocational Skills
- Community Integration

Peer Services

A peer mentor is a person with a developmental disability who has learned successful life strategies through their lived experiences. Our peer mentors are extremely passionate self-advocates, dedicated to helping others achieve new levels of independence and inclusion in their communities. Working with your team, our peer mentor will help guide you towards greater self-advocacy, empowerment and personal responsibility by assisting with resources such as:

- Housing
- Transportation
- Employment
- Post-secondary education
- Recreation and social inclusion

Nursing Services

True wellness encompasses both the physical and behavioral components of health. Through our Link to Wellness program, highly skilled nurses ensure that members have seamless access to routine preventative services while simultaneously breaking down barriers to meet their diverse physical health needs. Our Link to Wellness nursing services include:

- Health assessments
- Laboratory monitoring
- Injections
- Education on healthy eating, sleep, and exercise
- Diabetes monitoring and nutritional support
- Treatment planning and goal development

Mental Health Therapy

Our therapists possess extensive experience assisting individuals and their families. They bring a wealth of knowledge and a sincere passion for aiding people in managing strong emotions, handling challenging behaviors, controlling anger, addressing social anxiety, and confronting other mental health issues. Our therapists honor and support each person's unique journey by collaboratively working with members to:

- Set goals
- Develop coping strategies
- Enhance self-awareness
- Promote personal growth
- Encourage healthy emotional development
- Strengthen relationships

Leadership

My journey, as a licensed CPA with over 30 years of leadership experience guiding behavioral health entities, has fostered my compassion for the most vulnerable populations. I am deeply committed to making a meaningful difference in the lives of the individuals, families, and communities we serve.

Darlene Vasi

Chief Executive Officer

With a deep grounding in behavioral health and business, I bring over 15 years of clinical and operational leadership experience to PsyGenics. I am driven to raise the bar of quality behavioral health care services for everyone, particularly the most vulnerable in our communities.

Tamara Hagar

MBA, LLP, LMFT, CAADC, CCS, CFAS

Chief Clinical Officer

I am a business professional with 30 plus years of diverse business experience to include human resources, insurance, claims, disability, finance, strategic planning, and IT. I am dedicated to ensuring PsyGenics recruits qualified and passionate individuals to assist our member population.

Judy Hinson

Chief Business Officer

I am a health care professional with 10 plus years of experience in social work and public health administration, specializing in family wellness and health transformation. I prioritize guiding our team to deliver impactful solutions and foster lasting positive change in the lives of the members we serve.

LaJean Partmon

LMSW-C, MPH

Clinical Program Manager

I am a marketing professional with 14 years of experience across diverse fields including sales, business management, social services, IT, and healthcare. I am committed to leveraging innovative strategies to elevate PsyGenics' brand visibility and promote access to vital behavioral health resources.

Chae Williams

Director of Marketing
and Facilities

I bring over 10 years of behavioral health experience, including 7 years in program management, clinical supervision, and workforce development. I am dedicated to enhancing team performance and delivering tailored, compassionate support to meet the unique needs of our members.

Danielle Duckett

LMSW
